Refining our Curriculum

We are on a journey with our new curriculum and so will be evaluating and adapting the curriculum continuously as it is rolled out across the school.

We will use feedback from teachers, learners and parents, as well as information about pupil standards and progress to evaluate our curriculum provision.

We will be establishing a Curriculum Committee for Parents and the Community and more information will be sent about this in the new year. It would be fantastic to see you taking part to share your opinions.

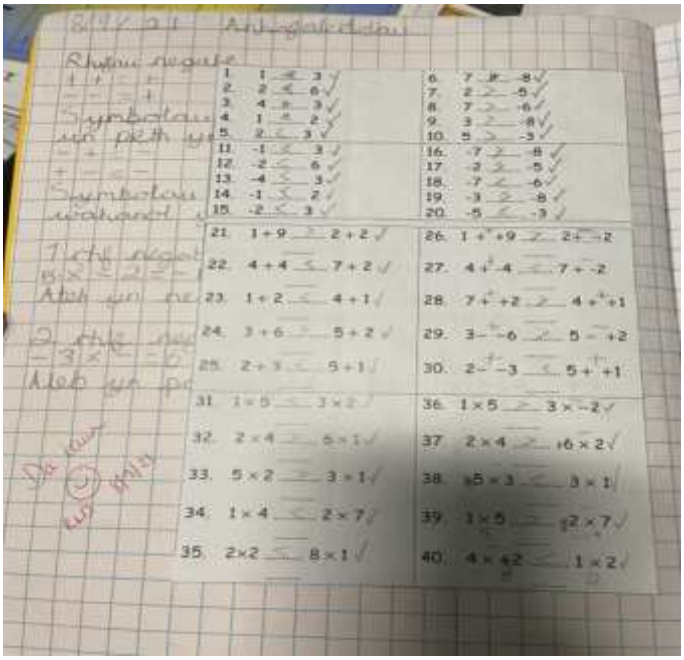
Maintaining a strong partnership between learners, school and home is important to help your child to make progress.

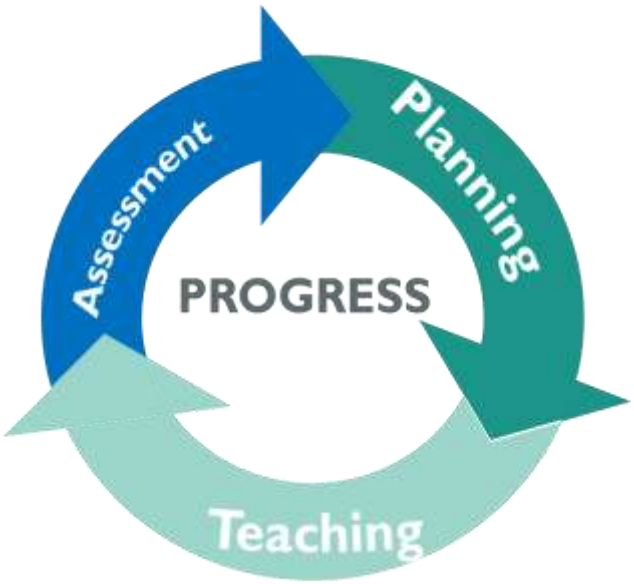
We will share information with you about your child's progress through reports, parents' evenings and by uploading pupil work to the SeeSaw app.



Supporting Pupil Progress

Ensuring that pupils make progress in their skills, knowledge and understanding is a key element of our curriculum.

To ensure that your child makes effective progress, we plan carefully across the learning continuum to increase and develop the level of challenge of skills and depth of knowledge.



We also plan for progress within lessons by ensuring that we know:

- **What your child can do already (assessment);**
- **What do they need to do to move on to the next steps and improve (planning);**
- **How we can support them to improve (teaching).**

In class, this will include:

- **Verbal feedback to pupils**
- **Written feedback and opportunities to improve work**
- **Using success criteria**
- **Self assessment and taking responsibility for their own work**
- **Peer assessment**
- **Reflective sessions and MAC lessons (Mae Angen Cofio— You must remember...)**

The four purposes (as noted above) will be embedded through real life experiences.

We can ensure this through use of our outdoor area and through visits and enrichment experiences. The ability to take measured risks and developing independent learners are key elements of the Curriculum for Wales and this can be supported through outdoor learning. A large element of becoming responsible citizens stems from learning about nature and our impact on the natural world. It is imperative that our children and young people gain experiences outdoors in order to achieve this. One Area of Learning in Curriculum for Wales is Health and Well-being, where there is a great focus on the outdoors in order to promote mental health and well-being; general health gains and confidence in children and young people.

We have invested time and resources into developing our outdoor areas and also our Forest School programme which has had much positive feedback from our learners.

"I enjoy doing activities outside " – Ava

"Being outside makes me happy" - Lexi

"I can do the things outside!" – Alex

Health and Wellbeing

Health and Wellbeing is central to our curriculum vision for our learners.

Pupils have a variety of opportunities to discuss their feelings, both individually and as part of circle time. They confidently use strategies that help them relax and control their own emotions. Our curriculum also places an emphasis on building confidence, self-image and the wellbeing of our learners in order to ensure that they are ready to learn.

Additionally, the curriculum includes three cross-currcicular skills that are developed across all Areas of Learning and Experience:

More information about these themes and what they include can be found on the following sites:

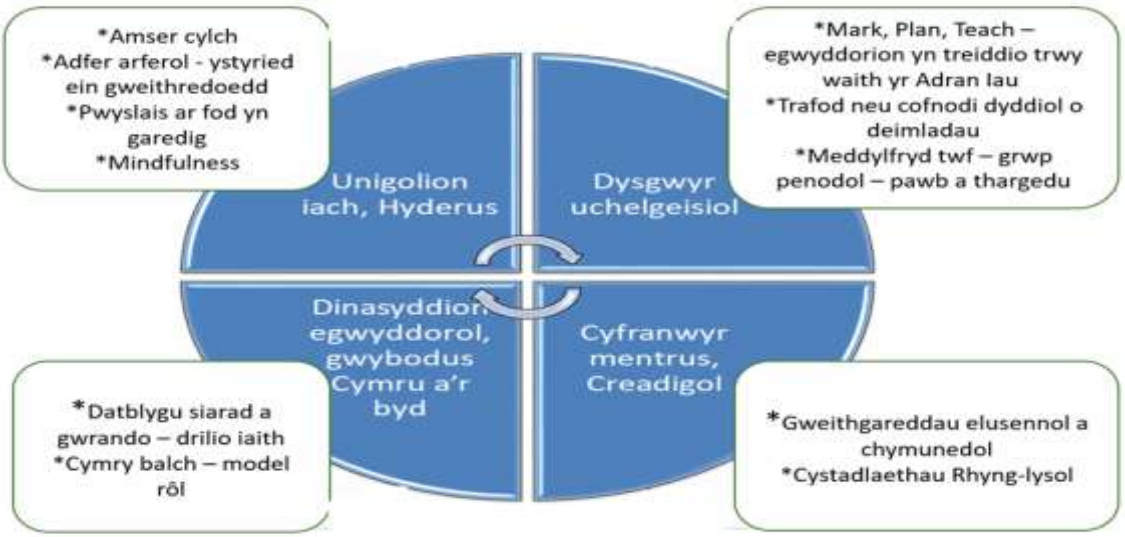
The Four Purposes

Facilitating learners' individual journeys across the 3-19 continuum to realise the Four Purposes of the Curriculum for Wales is the main driver of our curriculum planning at a whole school, departmental and classroom level. By the end of their time at Ysgol Gymraeg Ystalyfera Bro Dur, our learners will be:

- Ambitious, capable learners who are ready to learn throughout their lives.
- Enterprising, creative contributors who are ready to play a full part in life and work.
- Ethical, informed citizens who are ready to be citizens of Wales and the world.
- Healthy, confident individuals who are ready to lead fulfilling lives as valued members of society.

To lead your child along their learning journey will be the four curriculum characters, which have been designed by our primary learners.

As well as the experiences in lessons, these are some of the activities we plan in order to develop the Four Purposes:



Our Vision

"Our school motto Dysgu Gorau Dysgu Byw (Best Learning Learn to Live) represents our core philosophy which shapes each pupil's individual experience at Ysgol Gymraeg Ystalyfera Bro Dur. "

At the heart of our curriculum vision is our school motto: 'Dysgu Gorau Dysgu Byw'. Our curriculum has been designed to develop confident and capable lifelong learners that are equipped with the skills and knowledge to become valuable contributors to society and have a strong sense of 'cynefin' and Welsh identity. Our aim is to ensure that every pupil achieves their own personal excellence by providing an education and experiences of the highest possible standard in order to expand their horizons.

To realise this aim, eight values have been decided on by our staff and learners that are important to Ysgol Gymraeg Ystalyfera Bro Dur.

Our next step will be to set up a Curriculum Committee made up of parents and the wider community who will have an opportunity to contribute their ideas to our curriculum.
